INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all the unjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

RECORD OF EVENTS.

On the second day of June
the Company (then stationed
at Bailey's Plantation Edisto
Island) received orders to
march to the headquarters of
the Regiment and upon the
morning the Regiment took up
its line of march to the wharf
at Seabrook a distance of
20 miles. At noon on the
same day the reg't embarked
on the transport Mayflower
and crossed to Edisto River
to Johns Island; from the
landing we marched over
Johns Island which occupied
until the Fifth of June. We
 bivouaced 3 nights at a
distance of some miles from

where we had landed. We arrived at Legareville on the Fifth of June about 10 o'clock am having marched twelve miles in seven hours, during one of the heaviest rain storms that the army in this dept has ever been under. The roads were almost impassable, water being nearly up to the knees of the men, and the mud was very uncomfortable to walk through. Resting at Legareville for one day we again embarked and crossed Stone River to James Island and bivouacked about 2 miles from the landing. We were detailed for Picket duty on the 7th and on the 8th the

to reconnoitre a work which
the enemy had completed about
two miles from our line of
position. This Company was
ordered forward, deployed as
 skirmishers and moved through
a large cornfield forward a
house in which the enemy
pickets were supposed to be.
Upon reaching the house were
discerned a ridette of 40 men
and the right flank of the com-
pany came upon them so suddenly
they made no effort to escape
and we marched them into our
line. The Company was halted

and moving my Company forward double quick in the direction of the work we came upon an abbehis about 100 yds from where we caught the Pickets when the enemy opened a hot fire of grape and receiving the order to retire we did so in the best possible manner not losing a man though the enemy threw shot and shells during our retreat. From this date up to the 16th nothing occurred worthy of special notice. On the morning of the 16th the regt in common with the whole command were ordered into line of Battle and moved forward on the enemy's works. I cannot give an accurate account of the battle in the space allowed suffice it to say that

The Company has proved to be inferior to some in efficiency. We took our position on the left flank and held it during our hour of the hottest fire from musketry in front and of a light battery in our rear and when the order was given to retreat it was executed in fine style. My own shot over 20 rounds each and the number will show for the rest. No doubt that the enemy suffered more from the fire of Company B than did the Company suffer from the enemy's fire.

RECORD OF EVENTS.

The company was detailed from the last muster till March 28 in turn with the other companies of the Reg't for picket duty, and after March 28 for the same duty in turn with five companies. They have also performed their share of garrison duty. About 10 A. M. March 29 two privates of the company deserted from the advanced guard and were captured by the Captain with eight mounted men about 11 P. M. on the road to Jacksonville about twenty miles from this station

and brought into camp at 4 A.M. March 24. When not employed on other duties the company has been drilled in the appointed drills. April 3 the company quarters were changed from the barracks to the fort. There are five privates who have not been for duty during several months by reason of diseases contracted before coming to this post. But it has been confidently expected that under the favorable influences of this station they would regain their health. That expectation has not been realized except in one case. With three more exceptions the health of the company is very good.
